STUDY DAYS

Study Days are the two school days prior to each semester’s finals that allow students and teachers to focus on finals preparation. During these two Study Days students are NOT to have:

- New curriculum taught.
- Homework, unless for final study guides.
- Tests/quizzes (including makeups)
- Group/individual projects/presentations. *Exception if that time is being used to work on project/presentation as part of final. It will not be an expectation for students to meet outside of class time to work on project/presentation.
- Field trips
- School Business
